JOHN COOPER ABOUT

I am a Broadcast Lighting Cameraman with over 6 years experience in the Television Industry, ranging from independent production companies through to the Nations biggest Broadcasters.

I work with the vision of the Director, offering creative support and advice where appropriate, and working efficiently, safely, and to the brief.

I am adaptable, experienced in a vast array of shooting formats and styles, and most of all listen to what is happening on camera. I am quick-thinking and rational under pressure, I have a good variety of kit to help out in almost every situation, and my friendly disposition means I relate quickly to cast, contributors and crew.

I am experienced with a wide variety of ENG and prime lenses, an experienced FCP editor with good knowledge of data wrangling, and am happy to take on 1st & 2nd AC work.

I am experienced with the following cameras

PMW-F800 | PDW-700 | PMW-500 | DSR-450 | EX-3 | Sony F3 | RED
Canon XF-305 | Canon XF-105 | GO PRO HD | Canon 5D mk 2
